

- the brontometer, an instrument designed to facilitate their study, 59.
- Sympathetic nervous system in mammals, the development of the (Pater-son), 19.
- Teall (J. J. Harris) elected, 104.
— admitted, 151.
- Ternary alloys, on certain. Part II (Wright and Thompson), 25.
- Terrestrial magnetism, on the causes of the phenomena of, and on some electro-mechanism for exhibiting the secular changes in its horizontal and vertical components (Wilde), 358.
- Thermometer, on the determination of some boiling and freezing points by means of the platinum (Griffiths), 220.
- Thomas (A. P.) preliminary note on the development of the tuatara (*Sphenodon punctatum*), 152.
- Thompson (C.) and C. R. A. Wright, on certain ternary alloys. Part II, 25.
- Thorne (Richard Thorne) elected, 104.
— admitted, 151.
- Thumb and finger marks, the patterns in: on their arrangement into naturally distinct classes, the permanence of the papillary ridges that make them, and the resemblance of their classes to ordinary genera (Galton), 455.
- Thunderstorms, on barometric oscillations during, and on the brontometer, an instrument designed to facilitate their study (Symons), 59.
- Tidal observations of high and low water, on the harmonic analysis of (Darwin), 278.
- Tomlinson (C.) on the action of oils on the motions of camphor on the surface of water, 258.
- Transplantation and growth of mammalian ova within a uterine foster-mother, preliminary note on the (Heape), 457.
- Trust funds, 481.
- Tuatara (*Sphenodon punctatum*), preliminary note on the development of the (Thomas), 152.
- Vapour-density, experiments on (Per-man), 45.
- Veley (V. H.) the conditions of chemical change between nitric acid and certain metals, 458.
— and G. J. Burch, the variations of electromotive force of cells consisting of certain metals, platinum, and nitric acid, 460.
- Viscosity of water, on the superficial (Rayleigh), 127.
- Vocal cords in quiet respiration in man, on the position of the, and on the reflex-tonus of their abductor muscles (Semon), 156, 403.
- Walker (Gen.) account of recent pendulum operations for determining the relative force of gravity at the Kew and the Greenwich observatories, 105.
- Water, on the action of oils on the motions of camphor on the surface of (Tomlinson), 258.
— on the superficial viscosity of (Rayleigh), 127.
— re-determination of the true weight of a cubic inch of distilled (Chaney), 230.
- Weldon (Walter Frank Raphael) elected, 104.
— admitted, 220.
- Whetham (W. C. D.) on the alleged slipping at the boundary of a liquid in motion, 225.
- Wilde (H.) on the causes of the phenomena of terrestrial magnetism, and on some electro-mechanism for exhibiting the secular changes in its horizontal and vertical components, 358.
- Willey (A.) on the development of the atrial chamber of *Amphioxus*, 80.
- Williams (D.) and S. Martin, a further note on the influence of bile and its constituents on pancreatic digestion, 160.
- Wind pressure upon an inclined surface, on (Dines), 233.
- Wright (C. R. A.) and C. Thompson, on certain ternary alloys. Part II, 25.

ERRATA.

- Page 378, line 30, for "action" read "reaction."
 „ 382 „ 17 „ "heated" „ "treated."
 „ 387 „ 10 „ "with acids" „ "into acids."

END OF FORTY-EIGHTH VOLUME.
